

TABLE OF CONTENTS

Volume 2, Number 3, August 2012

Age-dependent changes in the exocytotic efficacy in Kir6.2 ablated mouse pancreatic β-cells	
E. B. Tsiaze, Y. C. Huang, L. K. Bombek, S. B. Yang, M. Jevšek, S. Seino, M. S. Rupnik.....	51
Young footballers, assessed by deep breathing test, have a higher vagal response	
S. Abouddrar, H. Rkain, L. Errguig, Y. Radjab, L. Oukerraj, A. Azzaoui, A. Ibrahim, L. Coghlan, M. Cherti, H. Benjelloun, T. Dakka.....	61
The modulation of sirtuins and apoptotic proteins in rats after exhaustive exercise	
G. Marfe, V. Manzi, M. Tafani, B. Pucci, A. Gambacurta, M. A. Russo, P. Sinibaldi-Salimei.....	65
The acute and chronic effect of low temperature on survival, heart rate and neural function in crayfish (<i>Procambarus clarkii</i>) and prawn (<i>Macrobrachium rosenbergii</i>) species	
Y. S. Chung, R. M. Cooper, J. Graff, R. L. Cooper.....	75
Constant daily hypoxia leads to different degrees of pulmonary hypertension in two different rat strains	
C. E. Bouserhal, E. van Lunteren, F. J. Jacono, K. P. Strohl.....	87
Ovariectomy at 3 or 10 weeks of age does not affect the ventilatory response to hypoxia in adult rats	
A. Bairam.....	93
Nitric oxide—Important messenger in human body	
M. Antosova, J. Plevkova, A. Strapkova, T. Buday	98

The figure on the front cover is from the article published in Open Journal of Molecular and Integrative Physiology, 2012, Vol. 2, No. 3, pp. 98-106 by Martina Antosova, *et al.*
