

Special Issue on Language, Logic and Cognitive Science

Call for Papers

Language, Logic and Cognitive Science investigates the intricate connections between linguistic systems, formal reasoning, and the mental processes involved in human thought and communication. It considers language structure, meaning, inference, conceptual representation, comprehension, and the cognitive mechanisms underlying linguistic production and interpretation. The topic also draws on theoretical and empirical approaches to syntax, semantics, pragmatics, formal logic, psycholinguistics, and cognitive modeling, providing a framework for understanding how language, reasoning, and cognition interact.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Language, Logic and Cognitive Science**. Potential topics include, but are not limited to:

- Linguistic theory
- Formal logic
- Cognitive linguistics
- Philosophy of language
- Semantics and pragmatics
- Syntax and grammar
- Psycholinguistics
- Language acquisition
- Language comprehension
- Computational linguistics
- Cognitive modeling
- Conceptual representation
- Human reasoning
- Decision-making and inference
- Knowledge representation
- Philosophy of cognition

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Language, Logic and Cognitive Science**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	December 30th, 2026
Publication Date	February 2027
