

## Special Issue on Attention Deficit Hyperactivity Disorder

### Call for Papers

Attention Deficit Hyperactivity Disorder (ADHD) is a disorder that appears in early childhood and can continue into adolescence and adulthood. It is one of the most common disorders among children. Symptoms include hyperactivity, impulsivity, and inattention. ADHD, despite being frequently studied and diagnosed, the cause in the majority of cases is still unknown.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Attention Deficit Hyperactivity Disorder**. Potential topics include, but are not limited to:

- Predominantly inattentive
- Predominantly hyperactive-impulsive
- Combined presentation or symptoms
- Management of ADHD (behavioral therapies, medication, etc.)
- Hyperkinetic syndrome
- Associated disorders (learning disabilities, restless legs syndrome, etc.)

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Attention Deficit Hyperactivity Disorder**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	April 28th, 2016
Publication Date	June 2016

**Guest Editor:**
