## Special Issue on Pediatric Neurology

### Call for Papers

The discipline of **pediatric neurology** encompasses disorders of the brain, spinal cord, peripheral nerve and muscle affecting infants, children and adolescents.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Pediatric Neurology**. Potential topics include, but are not limited to:

- Brain and neurological conditions
- Nervous system disorders in children
- Congenital anomalies of the nervous system
- Neurological developmental problems during childhood
- Seizures and epilepsy in children
- Movement disorders
- Neuromuscular conditions
- Speech disabilities and learning disabilities
- Autism spectrum disorders
- Intellectual and cognitive disabilities
- Attention deficit hyperactivity disorder
- Headaches and migraine
- Hydrocephalus
- Head injuries and complications
- Brain tumors
- Vascular neurology

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Pediatric Neurology**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	January 31st, 2022
Publication Date	March 2022

**Scientific Research**  
*Open Access*

**Open Journal of Pediatrics**

**ISSN Online: 2160-8776**
