

Special Issue on Applied Ethics and Moral Philosophy

Call for Papers

Applied Ethics and Moral Philosophy is a branch of philosophy that explores practical ethical issues by applying moral principles to real-world situations. It bridges theoretical ethics with everyday challenges, addressing topics such as bioethics, environmental ethics, business ethics, and the ethics of technology. This field examines questions of right and wrong, justice, responsibility, and the moral implications of decisions in various contexts, such as healthcare, law, and social policy. By analyzing ethical dilemmas, it seeks to guide individuals and organizations in making morally sound choices, promoting social well-being, and fostering ethical decision-making in complex and evolving environments.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Applied Ethics and Moral Philosophy**. Potential topics include, but are not limited to:

- AI and technology ethics
- Animal ethics
- Bioethics
- Business ethics
- Clinical ethics
- Cultural ethics and relativism
- Environmental ethics
- Ethical decision-making
- Ethics of artificial intelligence
- Ethics of care
- Ethics of climate change
- Ethics of war and peace
- Feminist ethics
- Human rights ethics
- Medical ethics
- Moral philosophy in education
- Political ethics
- Professional ethics
- Research ethics
- Social justice ethics

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Applied Ethics and Moral Philosophy**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 23rd, 2025
Publication Date	September 2025
