

# Table of Contents

**Volume 14    Number 1**

**February 2024**

**On a Compound Poisson Risk Model Perturbed by Brownian Motion with Variable Premium and Tail Dependence between Claims Amounts and Inter-Claim Time**

D. A.-K. Kafando, K. M. Ouedraogo, P. C. Nitiema ..... 1

**R-Factor Analysis of Data Based on Population Models Comprising R- and Q-Factors Leads to Biased Loading Estimates**

A. Beauducel ..... 38

**Economic Resilience in Bangladesh: Analyzing Household Well-Being amidst Price Hikes through ANOVA and Paired Sample t-Test Insights**

E. Ghosh ..... 55

**Frequentist and Bayesian Sample Size Determination for Single-Arm Clinical Trials Based on a Binary Response Variable: A Shiny App to Implement Exact Methods**

S. Gentile, V. Sambucini ..... 90

**Probability Laws Derived from the Gamma Function**

L. Toure, S. Conde ..... 106

**Rice University Rule to Determine the Number of Bins**

J. M. D. L. Rubia ..... 119

**Using Extreme Value Theory Approaches to Estimate High Quantiles for Stroke Data**

J. U. Rutikanga, A. Diop, C. Uwilingiyimana ..... 150
