## Special Issue on Rehabilitation Medicine and Therapeutic Innovations

### Call for Papers

Rehabilitation Medicine and Therapeutic Innovations focuses on restoring and enhancing the physical, mental, and functional capabilities of individuals affected by injury, illness, or disability. This field combines clinical practice with cutting-edge therapies to improve the quality of life for patients, emphasizing personalized treatment plans and evidence-based interventions. Advances in rehabilitation include the use of assistive technologies, robotic therapies, virtual reality, and regenerative medicine, all aimed at accelerating recovery and promoting long-term health. With a multidisciplinary approach, rehabilitation medicine addresses a wide range of conditions, from musculoskeletal injuries to neurological disorders, ensuring holistic and effective therapeutic solutions.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Rehabilitation Medicine and Therapeutic Innovations**. Potential topics include, but are not limited to:

- Physical rehabilitation
- Neurorehabilitation
- Assistive technology
- Prosthetics and orthotics
- Robotic rehabilitation
- Virtual reality therapy
- Stroke rehabilitation
- Pain management therapies
- Musculoskeletal rehabilitation
- Cognitive rehabilitation
- Gait analysis and training
- Wearable rehabilitation devices
- Occupational therapy
- Speech and language therapy
- Tele-rehabilitation
- Regenerative rehabilitation
- Functional electrical stimulation
- Adaptive sports therapy
- Chronic disease management
- Personalized therapy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Rehabilitation Medicine and Therapeutic Innovations**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	January 27th, 2026
Publication Date	March 2026

**Guest Editor:**

Dr. Amir Mohammad Amini

Medical and Sport, Brunel University London, UK
