

Special Issue on Urological Science and Practice

Call for Papers

Urological Science and Practice integrates fundamental research and clinical expertise to advance the understanding, diagnosis, and management of disorders affecting the urinary tract and male reproductive system. It encompasses a wide range of conditions, including urologic cancers, kidney and bladder diseases, urinary dysfunction, and andrological disorders. Progress in this area is driven by developments in molecular biology, imaging technologies, minimally invasive and robotic surgery, and evidence-based clinical strategies. Emphasis is placed on translating scientific discoveries into effective clinical applications, improving patient outcomes, and promoting innovation in both surgical and non-surgical urologic care.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on exploring **Urological Science and Practice**. Potential topics include, but are not limited to:

- Urologic oncology
- Endourology
- Andrology and male reproductive health
- Neurourology
- Pediatric urology
- Female urology
- Urolithiasis management
- Lower urinary tract dysfunction
- Reconstructive urology
- Minimally invasive urologic surgery
- Robotic urologic surgery
- Urologic imaging and diagnostics
- Renal physiology and disorders
- Bladder disorders
- Urogenital infections
- Urological pharmacotherapy

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly specify the “**Special Issue**” under your manuscript title. The research field “**Special Issue - Urological Science and Practice**” should be selected during your submission.

Special Issue Timetable:

Submission Deadline	July 20th, 2026
Publication Date	September 2026

Guest Editor:

Dr. Chun Li

Markey Cancer Center, University of Kentucky, USA
