

Special issue on Pharmacodynamics Research

Call for Papers

Pharmacodynamics (abbreviated as "PD") is the study of the biochemical and physiological effects of drugs on the body or on microorganisms or parasites within or on the body and the mechanisms of drug action and the relationship between drug concentration and effect. It is often summarized as the study of what a drug does to the body.

Authors should read over the journal's [Authors' Guidelines](#) carefully before submission, Prospective authors should submit an electronic copy of their complete manuscript through the journal [Paper Submission System](#).

Please kindly notice that the "Special Issue" under your manuscript title is supposed to be specified and the research field "Special Issue- *Pharmacodynamics Research*" should be chosen during your submission.

According to the following timetable:

Submission Deadline	July 10th, 2013
Publication Date	September 2012

Guest Editor:

Prof. Michel S. Bourin, University of Nantes, France
