## Special Issue on Infrastructure Economics

### Call for Papers

**Infrastructure economics** attempts to study the infrastructure from economics view point, involving business activities in communication, transportation, distribution networks, financial institutions, markets, energy supply systems, etc. The goal of this special issue is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various new issues and developments in area of **infrastructure economics**.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **infrastructure economics**. Potential topics include, but are not limited to:

- Demand and supply of infrastructure in the economy.
- Supply of investable funds
- Cost-benefit analysis of infrastructure projects
- Returns on infrastructure investments
- Models of infrastructure development
- Investment in infrastructure
- Infrastructure and economic growth
- Project finance and engineering economics
- Infrastructure debt
- Infrastructure asset management

Authors should read over the journal's [For Authors](#) carefully before submission. Prospective authors should submit an electronic copy of their complete manuscript through the journal's [Paper Submission System](#).

Please kindly notice that the “**Special Issue**” under your manuscript title is supposed to be specified and the research field “**Special Issue – Infrastructure Economics**” should be chosen during your submission.

According to the following timetable:

Submission Deadline	September 28th, 2017
Publication Date	November 2017

**Scientific Research**  
*Open Access*

**Theoretical Economics Letters**

ISSN Online: 2162-2086
