

Special Issue on Macroeconomic Analysis and Policy

Call for Papers

Macroeconomic Analysis and Policy examines the behavior and performance of economies at the aggregate level, focusing on economic growth, inflation, unemployment, business cycles and economic stability. It covers monetary and fiscal policy, interest rates, public expenditure, taxation and macroeconomic forecasting. The topic also explores how governments and central banks respond to economic shocks and design policies to promote sustainable growth, price stability, employment and overall economic welfare.

In this special issue, we intend to invite front-line researchers and authors to submit original research and review articles on **Macroeconomic Analysis and Policy**. Potential topics include, but are not limited to

- Monetary Policy and Central Banking
- Fiscal Policy and Public Finance
- Economic Growth and Development
- Inflation and Price Stability
- Unemployment and Labor Markets
- Business Cycles and Economic Fluctuations
- Macroeconomic Forecasting and Modeling
- International Macroeconomics and Exchange Rates
- Financial Markets and Macroeconomic Stability
- Macroeconomic Policy and Economic Shocks
- Political Economy of Macroeconomic Policy
