

Table of Contents

Volume 4 Number 3C

September 2016

The Technology and Application of the Tree Planting Baseplate in Bare Rock Area

X. H. Zhou, H. K. Chen, H. M. Tang.....1

Probability-Based Seismic Performance Evaluation for Buildings

J.-H. Lin.....8

Experimental Research and Finite Element Analysis on Setting Stiffening Rib of Corner Joints in Gabled Frames

J. Cheng, Z. Q. Hong, Y. Wang.....15

Numerical Tools Dedicated to Wind Engineering in Large Urban Area

L. Wang, S. Puygrenier, G. Caniot, S. Sanquer, D. Delaunay.....22

Application of Access Management Techniques to Large Shopping Mall in Beijing

B. M. Ding, X. K. Yang.....30

Evaluation and Improvement of Roundabouts in Changchun

M. Zhou, L. L. Yang, H. C. Chin.....40

The Application of Access Management in Commercial Area

S. Q. Gao, X. K. Yang.....51

Factors Analysis of Affecting Loading and Reinforcing Scheme of Large Goods in Railway

X. H. Li.....60

Analysis on Fracture Mechanics of Unstable Rock

S. Q. Chen, H. K. Chen, M. Yang, T. Chen, K. X. Guo.....69

Drone Applications for Preventing and Responding HAZMAT Disaster

A. Restas.....76

Numerical Simulation of Fluid Structure Interaction between Flow and Steel Pipe Pile Platform in Deep Water

W. Y. Yan, F. W. Lv.....85

Effect of Time Pressure at Tactical Level Managing Disaster

A. Restas.....93

2D Part-Based Visual Tracking of Hydraulic Excavators

B. Xiao, R. Q. Chen, Z. H. Zhu.....101
