World Journal of Engineering and Technology (WJET) is an open access journal published quarterly. The goal of this journal is to provide a platform for scientists and academicians all over the world to promote, share, and discuss various issues and developments in all aspects of engineering and technology.

Subject Coverage

All manuscripts must be prepared in English, and are subject to a rigorous peer-review process. Accepted papers will immediately appear online followed by printed in hard copy. The areas covered by World Journal of Engineering and Technology (WJET) include but are not limited to the following fields:

Aerospace Engineering and Technology
Architectural Engineering and Technology
Artificial Intelligence Technology
Automatic Speech Recognition Technology
Bioprocess Engineering
Chemical Technology
Civil Engineering
Composites Engineering
Control Engineering
Data Engineering
Ecological Science and Technology
Electrical and Computer Engineering
Engineering Education
Engineering Geology
Engineering Physics
Environmental Sciences
Food Science and Engineering
Genetic Engineering and Biotechnology
Green Energy Engineering and Technology
Hydraulic Engineering
Industrial Technology

Information Technology
Manufacturing Engineering and Technology
Materials Science and Engineering
Medical and Biomedical Engineering
Micro-System Technology
Military Technology and Equipment
Nano-System Technology
Naval Engineering
Nuclear Science and Technology
Opto-Mechatronics
Particle Physics
Petroleum Engineering
Pharmaceutical Engineering
Polymer Engineering
Reservoir Engineering
Security Engineering
Structural Engineering
Textile Engineering
Traffic Engineering
Visualization Technology

We are also interested in: 1) Short reports—2-5 page papers where an author can either present an idea with theoretical background but has not yet completed the research needed for a complete paper or preliminary data; 2) Book reviews—Comments and critiques.

What is SCIRP?

Scientific Research Publishing (SCIRP) is one of the largest Open Access journal publishers. It is currently publishing more than 200 open access, online, peer-reviewed journals covering a wide range of academic disciplines. SCIRP serves the worldwide academic communities and contributes to the progress and application of science with its publication.

What is Open Access?

All original research papers published by SCIRP are made freely and permanently accessible online immediately upon publication. To be able to provide open access journals, SCIRP defrays operation costs from authors and subscription charges only for its printed version. Open access publishing allows an immediate, worldwide, barrier-free, open access to the full text of research papers, which is in the best interests of the scientific community.

- High visibility for maximum global exposure with open access publishing model
- Rigorous peer review of research papers
- Prompt faster publication with less cost
- Guaranteed targeted, multidisciplinary audience
